Description:

Wir freuen uns, diesen Ferrari F355 Berlinetta Handschalter aus erster deutscher Hand anbieten zu können. Das Fahrzeug wurde regelmäßig serviert und zuletzt wurde im Oktober 2024 eine große Wartung inkl. Zahnriemenwechsel durchgeführt. Zum Lieferumfang gehören u.a. die original Bordmappe mit Serviceheft sowie das originale Werkzeugset. Eine einmalige Gelegenheit einer der besten Sportwagen der 90er Jahre im Bestzustand zu erwerben. Wir freuen uns auf Ihre Kontaktaufnahme.

We are pleased to offer this Ferrari F355 Berlinetta manual transmission from its first German owner. The vehicle has been regularly serviced, with a major maintenance including a timing belt replacement recently carried out in October 2024. The delivery includes the original owner's manual with service booklet as well as the original toolset. This is a unique opportunity to acquire one of the best sports cars of the 1990s in excellent condition. We look forward to hearing from you.

**Information about fuel consumption,
CO₂-Emissions and power consumption i.t.s. o.t passenger car
EnVKV**

Brand:	Ferrari	Fuel:	
Model:	F355	other Energy:	
Power:	280 kW (381PS)	Mass of vehicle:	0 kg

Fuel consumption	combined:	l/100 km
	Inner city:	l/100 km
	Outside city:	l/100 km
CO₂-Emissions	combined:	
Power consumption	combined:	kWh/100 km

The specified values were determined according to the prescribed measuring procedures (§2 Nos. 5, 6, 6a PKW-EnVKV in the currently applicable version). CO_2 emissions caused by the production and provision of the fuel or other energy sources are taken into account when determining the CO_2 Emissions not taken into account according to Directive 1999/94/EC. The information does not refer to a single vehicle and is not part of the offer, but only serves to compare the different vehicle types.

Notes according to Directive 1999/94/EG:

A vehicle's fuel consumption and CO₂ emissions not only depend on the vehicle's fuel efficiency, but are also influenced by driving behavior and other non-technical factors. CO₂ is the greenhouse gas mainly responsible for global warming. A guide to the fuel consumption and CO₂ emissions of all passenger car models offered in Germany is available free of charge at every point of sale in Germany where new passenger car models are exhibited or offered.

CO2 efficiency		Calculated on the basis of the measured CO2 emissions, taking into account the mass of the vehicle.
Combined annual tax for this vehicle based on CO2 emissions g/km according to WLTP		Euro n.a.
Energy source costs with a mileage of 20,000 km		
Fuel costs () at a fuel price of 0.000Euro/accounting unit		Euro 0.00
Electricity costs at an electricity price of 0.375Euro/accounting unit		Euro 0
		created at: Dec 4, 2024
